RE: Re-injection Well  
Treatment

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) September 25, 2000, letter requesting approval to use a more aggressive re-injection well treatment procedure.

The request is reasonable to reduce clogging around the injection well and U.S. EPA concurs with U.S. DOE's request.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric  
Remedial Project Manager  
Federal Facilities Section  
SFD Remedial Response Branch #2
